

# PROGRAM-O

The Open Source PHP

MySQL and AIML Chatbot

## Program O Installation

### Installation Complete!

The configuration for both the bot and the database are complete, but you now need to upload your bot's AIML categories.

**Your bot will not work until you have completed these instructions outlined here: [administer the chatbot](#).**

Once you are confident you are ready to proceed please log into the [Admin Page](#) to upload your aiml files and create your bot.

### NOTE:

If you wish to use a different account for your Program O Admin user, then you will need to edit the configuration file manually.

If you have any questions about this, or anything else Program O, please visit us at [www.program-o.com](http://www.program-o.com).
